Entrance Matting Systems & Specialist Mats
& Floorcoverings

“BUFFER-ZONE” Fibred rubber/Aluminium Entrance Matting

CLEANING & MAINTENANCE

“**Buffer-zone**” entrance mats are designed to prevent the foot borne ingress of dirt and moisture into a building.

The aluminium ribs of the mat scrape dirt from shoe soles, whilst the polypropylene strips absorb moisture.

Daily Cleaning

Regular maintenance is vital to ensure that “**Buffer-zone**” remains effective.

Normal daily soiling can be dealt with using a suction vacuum cleaner. A 2000 Watt model will give better results than a lower powered model. The use of rubber bladed wet floor tool attachment should increase the effectiveness of the cleaning.

Periodic maintenance

Best results can be achieved by the periodic use of a spray extraction carpet cleaning machine or, where possible, by removal of the matting for pressure washing or steam cleaning.

The use of a mild detergent (neutral pH) cleaning solution in the carpet cleaning machine should loosen ingrained soiling and aid the removal of oils and grease. More stubborn stains should be treated a solvent based spot remover prior to re-cleaning with the detergent solution.

Chewing Gum can be removed by freeze spraying or with a proprietary chewing gum remover and then scraped or combed out of the matting carpet pile. This should be done before the full cleaning process is started.

“**Buffer-zone**” mats have replaceable polypropylene insert strips. Depending on the regularity of maintenance and the volume of foot traffic, the strips may require replacement at infrequent intervals. Replacement fibred rubber insert strips may be obtained from **Jaymart Rubber & Plastics Ltd.**

In the event of further queries please contact the Jaymart Sales Office on **01373 864926.**

Safety Flooring & Matting Systems

Entrance Matting Systems (Aluminium, Coir, Rubber Polypropylene, Nylon, etc.) & Matwell Frames.

Rubber Flooring Systems (Round Studded, Square Studded, Ribbed, Slate, Chequered, Hammer, Terrazzo, Smooth etc.)

Safety Stair Treads & Nosings

Sports Floorings

Specialist Floorings & Mattings (Golf Spike Resistant, Ice Skate Resistant, Oil & Grease Resistant, Low Smoke Emission/Fire Resistant, Cigarette Burn Resistant, Anti-Static, etc.)

Interlocking Looselay Flooring Tiles & Mattings Duckboard Safety Mattings (Vinyl, Rubber, etc.) for wet areas.

Artificial Grass Carpeting Indoor/Outdoor.

Natural Fibre Carpeting (Coir, Seagrass, Sisal etc.)

Recycled Environmentally Friendly Floorcoverings

Lettered/Logo Mats Chair Mats for Office Carpet Protection. Foyer/Hallway/Entrance Carpeting Carpet & Flooring Protection Systems.
